

Survey...Design...Collaboration...Installation...Customer Delight!  
888-331-3100

## Our Mission

Matting is one of the first impressions made on customers, guests, tenants, & associates.

Proform's mission is be the best possible partner for clients that demand the highest levels of safety, lobby matting design, and professionalism.

We start with an architectural floor plan or on-site survey and begin discussions on walk pattern, transport & storage, color, & budget.

Through our collaboration we create a preliminary matting design which is refined until it meets your unique needs.

Our goal is to use new technology to improve our ability to assist our clients in visualizing & creating the best possible design for their facility.

We're here to delight our customers!

**We make it easy.....from free layout & logo design to installation.**
