

CUSTOM TAILORED ENTRY MATTING

Logo's • Custom Shapes • Custom Sizes • Installation (Loose Laid or Glued Down)
Interior/Exterior • Vestibules and Recessed Wells

DO YOU HAVE A **GREEN** FACILITY?

Building sustainable solutions for a **greener** environment

Proform engineered entry matting is designed to make a bold and exciting statement about your facility. High quality matting, well designed, and installed, reduces the risk of trip and fall and adds years to the useful life of interior & exterior surfaces... an intelligent **green** decision.

Proform products are engineered to last up to 5 times longer than alternative economy products...keeping them out of the waste stream... an intelligent **green** decision.

Proform matting improves air quality by holding dust and dirt in place without energy, manpower, or cleaning chemicals... there is no **greener** way to clean.

Proform natural recycled rubber backing and 20% post consumer recycled polypropylene face deliver quality, functionality, durability, and sustainability.

Proform contributes to LEED building certification under Materials and Resources, Indoor Environmental Quality, and Innovation and Design Process.

LEEDS CREDITS

IEQ Credit 4.1 (1 point)

IEQ Credit 4.3 (1 point)

IEQ Credit 5 (1 point)

MR Credit 4 (1-2 points)

Recycled Content (Post-Consumer): 20%

There
is no
greener
way to
clean
than to
stop the
dirt from
getting in
with a
ProformTM
matting
program.
