

PRO-GRIP Mat Gripper Pads

DESCRIPTION:

PRO-GRIP pads are designed to reduce or eliminate mat movement on hard floors (not effective on carpet). Perfect on granite, marble, terrazo, or any hard flooring. PRO-GRIP's tacky, non transferable surface will hold on the back of the mat and lock it to the floor.

HOW TO USE:

Remove one side of plastic sheet from pad and apply the pad to the corner of the mat covering some amount of the vinyl safety edge. Repeat process for each corner (larger mats may require more pads). Position mat and remove the second sheet of plastic. Do not throw plastic sheets away. Store Pro-Grip pads between the plastic sheets when not in use.

Each pad is 6.25" x 6.25" in size.

\$10.00 per pad sold individually or in cases of 30 units bulk.
