Your Problem

The runners offered by traditional matting manufacturers do not always meet the appearance, safety and functional needs of Class A facilities.

The Proform Solution

Our goal is to deliver consuming customers and our distributor partners high quality products, design, and layout. The Proform result is improved safety, better protection of interior surfaces, and dramatically more attractive lobbies.

DO YOU HAVE A **GREEN** FACILITY?

Building sustainable solutions for a greener environment

Proform engineered entry matting is designed to make a bold and exciting statement about your facility. High quality matting, well designed, and installed, reduces the risk of trip and fall and adds years to the useful life of interior & exterior surfaces... an intelligent **green** decision.

Proform products are engineered to last up to 5 times longer than alternative economy products...keeping them out of the waste stream... an intelligent **green** decision.

Proform matting improves air quality by holding dust and dirt in place without energy, manpower, or cleaning chemicals... there is no **greener** way to clean.

Proform natural recycled rubber backing and 20% post consumer recycled polypropylene face deliver quality, functionality, durability, and sustainability.

Proform contributes to LEED building certification under Materials and Resources, Indoor Environmental Quality, and Innovation and Design Process.
